PROFILE

I build full-stack web applications end to end, from data model to deployment, with Next.js, TypeScript and Node.js. Recent work spans a role-based platform for road-safety management and a client real-estate site with a 3D property viewer.

Experience

IT Support / Frontend Development — Steadfast Academy

2025 - Present

- Developed responsive Teacher and Parent portals with Next.js and React
- Integrated frontend applications with backend APIs
- Worked with school information systems
- Built the Parent mobile application using Expo / React Native
- Supported users and troubleshooting
- Assisted with IT infrastructure and technical support

Selected Projects

RoadSafe360

Role-based dashboards, Firebase backend, QR licence & appeals workflow

Sapio Homes

Client real-estate site with a 3D property viewer and booking flow

Steadfast Parent Portal

Next.js web platform integrated with a Node.js API

TOP SKILLS

React Next.js TypeScript
Node.js REST APIs PostgreSQL
Firebase Docker

EDUCATION

BSc Information Technology

Umma University · 2021 – Present

Cybersecurity focus

CERTIFICATIONS

- ✓ Microsoft Azure Fundamentals (Microsoft, 2022)
- ✓ CompTIA Security+ (CompTIA, 2022)
- ✓ AWS Cloud Practitioner (Amazon Web Services, 2023)
- ✓ Google Cybersecurity Professional (Google, 2023)
- ✓ CCNA (Cisco, 2023)
- ✓ IBM Cybersecurity Analyst (IBM, 2024)
